

"Hello, and thanks for your interest in hiring me to help with your project!" I spent around 8 months throughout 2016-17 studying with The Photography Institute in Covent Garden, London, learning from renowned photographers such as Matthew Evans (who was my tutor) and George Seper, who wrote the course.

Both Matt and George proved to be a huge inspiration for me in terms of developing my own style and quality of work. Studying with The Photography Institute was a really valuable and enjoyable experience, ending with graduation and achieving a Diploma in Professional Photography in the summer of 2017.

I am also a WiX partner and am self-taught in using Adobe editing and development software to create exceptional designs and digital artwork, in my home studio.

I would love to have an opportunity to learn all about your project or ideas and to see how I can help. I like to carry out my work in a way which makes it all about you and truly reflects you and what you are looking for.

Please feel free to get in touch with any questions, either by email or phone.

PHOTOGRAPHY

I specialise in a range of professional photography, ranging from lifestyle, commercial, locations and events.

The Photography Institute is registered with the UK Register of Learning Providers: UK Provider Reference Number is 10027300 and offers you the most advanced and comprehensive online solution to learning available today.

We offer the most thorough home study course in photography using the very latest online learning techniques.

Our commitment to providing the highest quality training program has resulted in unique teaching and student support systems, which produce unparalleled results.
